SIZE GUIDE RINGS

Would you like to purchase or give a gift of a Juliette Paris ring but you have some doubts about the size to choose?

Juliette Paris provides you with this detailed guide to help you see more clearly and make the right choice

MEASURE MY FINGER WITHOUT RING

If you don't currently have a ring to know your size, here's what to do to make sure you make the right choice.

First, wrap your finger with a ribbon or something similar.

Once done, mark with a pen or felt-tip pen the exact spot where the two parts of the ribbon (or the object you have chosen to wrap your finger on) intersect, then measure your finger size in millimeters.

Now that you have your finger size in millimeters, you just need to refer to the table below for a match in terms of ring size.

CIRCUMFERENCE OF YOUR FINGER IN MM	RING SIZE		
	EUROPE	UK	US
47	47	H 1/2	4
48	48	I 1/2	4 1/2

MEASURE MY FINGER CIRCLE USING A RING

If you currently have in your possession a ring which is perfectly adapted to your finger, the approach is different.

In fact, all you have to do is print the size illustrations below, then bring your ring, and position it so that it is perfectly aligned with the diameter of the circle.

This will make it clear to you what the size of your ring is and therefore which size of Juliette Paris ring you should choose.

Note that if your ring is between two modeled sizes, the best choice is to go for the larger size. It will always be preferable.
